- Performance Analysis
- Performance Skills Techniques

Have you been to a BSL workshop in 2009/2010 and want to attend again? You can still receive your CEUs! BSL Extended is a longer and newer version of our BSL workshops. You can attend and your CEUs qualify as a new workshop.

Never has a tour like this been done! The "Bringing the Stage to Life" tour features a one of a kind Performance Interpreting workshop which entices the everyday interpreter with new skills and unique performance techniques. This workshop will get you on your feet and keep you active as you learn how to prepare and present attractive imagery based ASL glosses with style and flare in the concert and musical theatre settings. In addition interpreters will learn the "lingo" they need to interact with the administration and technical crew. Interpreters will leave with all the tools needed to succeed in the Professional Performance Interpreting field. This workshop is for the most mature and newest of interpreters. Everyone will learn, and everyone will leave entertained, educated, and inspired. Schedule YOUR tour stop today!

PCRID is an Approved RID CMP Sponsor for Continuing Education Activities. These Professional Studies programs are offered for the CEUs listed above at the Little/None Content Knowledge Level. For more in depth information about the individual classes, accessibility, and cancellation policies view the website listed above.
